# Lavanya Gidda

**JavaScript Full Stack Developer**

glavanya072@gmail.com | +91 8790469325 | DOB - 07 Jun, 2002

## SKILLS

### PROGRAMMING

Languages

- JavaScript,C++
- C, Java, Python
- Novice: Kotlin

Tools

- GITHUB • VS Code • Windows

Frameworks

- Express.js

Technologies

- HTML • CSS • React.js
- Node.js • MongoDB
- Kotlin (Android Development)

### OTHERS

- Video Editing
- Exploring new technologies

## EDUCATION

### B. Tech, CSE

Rajiv Gandhi University of Knowledge Technologies-SKLM
2019-23 | Nuzvid
CGPA: 8.9

### PUC(Pre-University Course), MPC

Rajiv Gandhi University of Knowledge Technologies-SKLM
2017-19 | Nuzvid
CGPA: 9.2

### 10th Standard

Z.P.Girls High School
2016-17 | Nidadavole
CGPA:9.8

## LANGUAGES KNOWN

- English • Telugu

## LINKS

Github:// **Lavanya-Gh**

## CERTIFICATIONS

**Java Basics:** By MicroSoft
**AI-ML Basic:** By AWS

## EXPERIENCE

**Cuvette Tech**    Intern | Aug 2023 - Feb 2024 |  Remote
**FULL-STACK**   React.js | Node.js | Express.js | MongoDb

- Developed FullStack Services, implemented various projects like swipTory,project task manager,MusicCart.
- Integrated  Frontend with Backend, improving user interactions.
- Built RESTful APIs using Express.js Framework, enhancing data flow.
- Developed  UI which boosts user engagement.
- Worked on MVC architecture, ensuring scalability and cost-effectiveness.

**Efftronics Systems Pvt  Ltd**  Intern | Sep 2022 - Aug 2023 | Vijayawada

**Android Developer| Frontend**     Kotlin

- Developed new UI for a project named KotappaKonda App
- User-Friendly  UI for both and Admin and Client

## PROJECT(S)

**SwipTory**    React.js | Node.js | Express.js | MongoDb

- The primary purpose of this project is to allow users to construct stories of at least three slides by submitting photographs and descriptions. After signing into the service, users can start writing their own stories.
- User does not need to be logged in to access the story.
- Viewing: A vast array of content in several categories, including Food, Travel, Health and Fitness, Movies, and Education, are available for users to peruse.
- Bookmarking: For convenient access and ongoing reading, users can bookmark their favorite stories.
- Liking: Allows users to give stories a like. Sharing: Even while signed out, users are still able to share stories. Although the user interface of this app is responsive, it can fit on any screen.

**Project Task Manager**   React.js | Node.js | Express.js | MongoDb

- The major objective of Project Task Manager is to streamline task management operations.
- The program seeks to improve cooperation, promote effective workflow management, and support timely task completion by offering a single platform for task organization, prioritization, and tracking.
- The tool provides a clear structure for grouping jobs into stages, allowing users to prioritize and manage their workflow effectively.
- Tasks can be allocated priority levels to ensure that the most important tasks receive adequate attention.

**MusicCart**    React.js | Node.js | Express.js | MongoDb

- Its principal goal is to bring together all of its customers so they can purchase only music-related items without having to shop around for the best value.
- Create a straightforward and visually appealing interface that focuses on ease of navigation, product visibility, and seamless user engagement.
- Source earbuds from recognized brands and providers to ensure a diverse variety of alternatives across pricing points and features.
- Individual product pages should contain thorough product descriptions, specifications, high-resolution photos, and customer reviews.
